

Baptism Photos

Last Updated Friday, 16 November 2007

One way we declare our faith as Christians is by being baptised in water. In November we had many hands go up when the opportunity to be baptised was presented, so one Sunday after our normal morning church we had a very special baptism service.

Thirty two of our young people took the stage and talked publicly about their faith. They shared with the church how they believe in Jesus and why they wanted to be baptised.

Pastor Thoeun and Tonet took the group to the river (which was just under our building) to pray with each individually and baptise them. The children have an amazing faith, the Bible speaks about the faith of a child, seeing and hearing these young ones share about their faith in ways that are obviously very real to them was very encouraging.
